

# VENTOSOL

720/3

Vertical shading with ZIP system  
producing shades up to 23' wide  
without tube deflection.

# VENTOSOL VM720/3

VM720/3 Square boxes

ZIP system

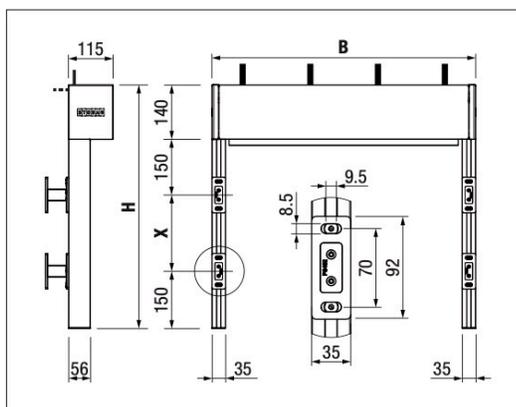

- Box design keeps fabric protected.
- Drop profile (hem bar) is recessed into the box.
- Floating roller tube
- Maximum stability of the cover guidance system thanks to the ZIP system (Soft Retaining System – zip fastener technology)
- No light can creep in between the cover and guide rail (ZIP system)
- Very high wind stability
- No fluttering of the cover or excessive noise emission
- Insects are kept out
- For installation:
  - Wall mounting possible with fixing brackets, direct screw connection or clip system
  - Soffit mount achievable using direct screw connection

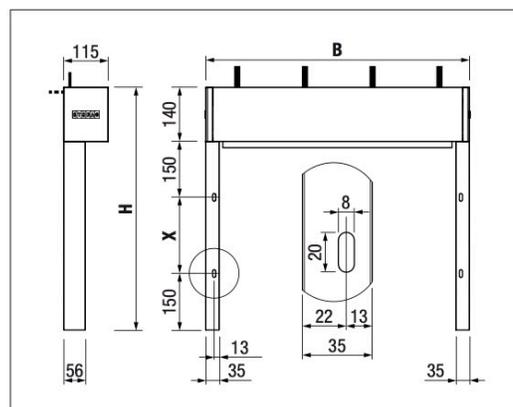

min. 2' 9"  
max. 23' 0"
